Pearce Street To Be Opened Up

Monk, Hammond and Lansdowne Streets To Be Closed

Meeting of the Council and Leading Citizens with Supt. Jamieson, of C.P.R., Arranges for Satisfactory Settlement of the Street Crossings Question

Mr. R. R. Jamieson, Superintendent Western division of the C.P.R., was in the city on Saturday last for the purpose of meeting the council board and leading citizens to again discuss the crossing question.

Mayor Swoboda occupied the chair and briefly explained the object of the meeting, when he called up a Mr. Jamieson to explain what the C.P.R. proposed doing in the matter.

Mr. Jamieson stated that nothing had been done re the closing of the crossings, but now the traffic was increasing so rapidly on account of the east line that something had to be done. More yard room was required, but before more tracks could be laid arrangements had to be made re the closing of the crossings. Mr. Jamieson then produced a plan of the new tracks they proposed laying here. Lansdowne street crossing was the only one showing on the plan, over which ran three or four tracks. Immediately north and south of Lansdowne street the tracks diverged until a dozen were reached. These extended to the northern and southern boundaries of the C.P.R. properties in Wetaskiwin, which represented approximately twelve miles of track in the Wetaskiwin yard.

"The system we propose working out here," said Mr. Jamieson, "will necessitate the closing of Monk street, as it is our desire to establish a freight terminal point here."

At this juncture someone stated that there was a great deal of opposition to the closing of Monk street owing to the depreciation in the value of property. To this remark Mr. Jamieson replied that it might be a question as to whether property would depreciate in value greater if the railway company should decide to establish their terminal point elsewhere than it would if Monk street should be closed.

A lengthy discussion followed re the question of subway at Lansdowne street, then the feasibility of a subway midway between Lansdowne and Pearce streets, but these were found to be impracticable.

Mr. W. J. Loggie, who was acting on behalf of the property owners of Monk St., wanted to know if it was at all possible to have Pearce street opened, stating that he believed that the objection of his clients would be removed if such a course was possible. Mr. Jamieson then studied the plan carefully for a time and then stated that he thought it would be possible to have Pearce street opened without much trouble or expense.

This solution of the difficulty appeared quite satisfactory to all the citizens present and Mr. Jamieson said he would do all he could to comply with the wishes of the citizens of Wetaskiwin.

It was then moved by Ald. Olin and seconded by Ald. Gould, that the council recommend that the C.P.R. Ry. Co. investigate the possibility of putting a level crossing or subway at Pearce street and if found practicable this council would urge no objections to the closing of Monk, Lansdowne and Hammond street crossings as soon as the level crossing or subway

Persons Qualified to Vote

It behooves every citizen of Wetaskiwin who is qualified to see that his or her name is enrolled upon the voters list at once. Names will be received up to and including Monday, November 5th, after which date the roll will be prepared, and the only opportunity for addition of names thereafter will be at the court of revision, held on November 15th. The qualification of voters was entirely changed by the act incorporating the city of Wetaskiwin, hence we quote the clause in full referring to this matter:—

"The persons qualified to vote shall be the men and women over twenty-one years of age who are assessed upon the last revised assessment roll of the municipality for income or personal property for \$20.00 or upwards, or who are named upon the said assessment roll as either owners or owners of real property held in their own right for \$100.00 or upwards, and whose names appear in the voters' list founded upon such a roll."—2t

Foster's Weather Forecasts

Washington, Oct. 27.—Last Bulletin gave forecasts of disturbance to cross continent October 27 to November 1, warm wave 29 to 30, cross west of Rockies country by close of Nov. 1, great central valleys Nov. 2, eastern states 7. Cool wave will cross west of Rockies about Nov. 3, great central valleys 5, eastern states 7.

This will not be an important disturbance. Temperatures will average below normal, cloudy weather will be the rule and other, wise rather pleasant weather may be expected.

The second disturbance of November will reach Pacific coast about November 4, cross west of the Rockies country by close 5, great central valleys 6 to 8, eastern states 8. Warm wave will cross west of Rockies about November 4, great central valleys 6, eastern states 8. Cool wave will cross west of Rockies about November 7, great central valleys 9, eastern states 11.

Put your affairs in order, for this will be one of the worst winter storms of recent years. Of course it will not effect all parts of the continent, but as it will reach the heart of North America, I will not try to designate where its fury will be greatest. The first indication of the approaching storm will be a great rise in the temperature and weather that might induce you to extended outdoor affairs. Don't be deceived by the persuasive elements, but get ready for a furious winter disturbance. If it misses you be happy because it did.

November will be a bad winter month. Three great storm periods may be expected that will cross the central valleys not far from Nov. 7, 17, and 27; a little earlier farther west and a little later east. The first one mentioned, and described in next above paragraph, will be the least important, only an introduction to the real thing. These disturbances will cause great storms in many parts all around the earth.

November will average colder than usual. Not much precipitation till after the middle of the month. Much bad weather till the end of December, and it will pay to get ready for the worst that sometimes occurs during these months.

No Exorbitant Profits

Slater Shoes Made and Marked to Protect the Buyer

"We want shoes upon which we can place our own profit," said a shoe dealer, who was discontented with the stamped price and fixed profit on the Slater Shoe.

The Slater Shoe system protects the shoe wearer from exacting exorbitant profits; it further enables the maker to make a first-class shoe, and allows the dealer a fair profit. Both price and trade mark are stamped on the real Slater Shoe, and the buyer who is careful to see these cannot be deceived. Slater Shoes at \$1.85 and \$2.00 for men, and at \$3.50, \$1 and \$5 for women are all Goodysar wetted and warranted.

Appalling Railway Accident

Atlantic City, N. J., Oct. 29th.—In a railway wreck near here today from 75 to 80 people were killed. Three cars jumped the track and crashed into the thoroughfare. The bodies are in the wreckage which are submerged in the water and divers and wreckers are at work extracting them. A wrecking train from Philadelphia is on hand and an attempt is being made to raise the submerged cars. High seas set in after the accident. The Royal Military band was on board and are supposed to have been all saved but two. When the train left the rails it was running at high speed, according to some persons, as fast as 40 miles an hour. A defective rail is believed to have been responsible for the train leaving the track. The cries of the imprisoned passengers as the coaches plunged into the water did not last long and when the top of the first two cars disappeared from view not a sound more was heard.

Tailless Chinks

It is reported that the Chinamen in this part of the country are cutting off their pig tails. Sunday being a day on which they have some leisure is the day chosen as a rule for the operation. It is stated that several of the Chinamen in Edmonton have had their pig tails cut off, but so far we are unaware that any of our colonial citizens have had the operation performed. It seems that after their next New Year's day the statute ordaining pig tails as the ordinary fashion in China will be abolished, so that they are taking time by the forelock, or rather pigtail, and getting rid of these appendages ahead of the date set by the Chinese government.

DOAN'S KIDNEY PILLS CURED HIM.

I was so bad I could not stoop or bend. I consulted and had several doctors treat me, but could get no relief. On the advice of a friend, I purchased a box of your valuable, life-giving medicine, Doan's Kidney Pills, and to my surprise and delight, I immediately got better. I can now do my work and am well. I have no more pain across my kidneys. Doan's Kidney Pills are 50 cents per box or three boxes for \$1.25. Mr. Herrity of North Battleford, is in the city this week renewing acquaintances.

R. B. Inglis, of Camrose, passed through Wetaskiwin this week en route for the capital.

Council Proceedings

The regular meeting of the city council was held on Wednesday evening. All present except Alderman Raybould.

Minutes of previous meeting read and adopted.

The inward and outward correspondence were then disposed of.

A letter from the C. P. R. was read suggesting a compromise on the assessment as the company did not desire to take the matter to the court. It was therefore moved by Olin-Good that the assessed value of the C. P. R. lands within the city limits, amounting to 10.59 acres be reduced to \$10,000 and that the C. P. R. be given to distinctly understand that the reduction is not made under the impression that they were overtaxed in the first place, but that in view of this being the only appeal it is as well to meet C. P. R. half way in their expressed wish for a compromise and that this motion be conveyed to them through the city solicitor without prejudice. Carried unanimously.

After a brief discussion it was moved by Olin-Montgomery, that \$125.00 be offered to Mr. C. S. Lott for lot 23, block 11, east side, for fire protection purposes. Carried unanimously.

Mayor Swoboda referred to the special meeting held on Saturday morning to meet Mr. R. R. Jamieson, re closing railway crossings.
